**GOLGO 13™**

Thank you for selecting the fun-filled "GOLGO-13" game pak by VIC TOKAI, INC.

### SAFETY PRECAUTIONS

Please take time to read the important instructions in this booklet. Observing the step by step instructions and complying with warnings will be your personal guarantee to greater game satisfaction over a long period of time.

- 1) Avoid subjecting this high precision game pak to extreme temperature variances and tremendous shock. Furthermore, never attempt to disassemble your game pak.
  - 2) Do avoid touching terminal connectors, and keep clean by inserting game pak in protective STORAGE case.
  - 3) Use of thinners, solvents, benzene, alcohol and other cleaning agents can damage the game pak.
  - 4) For best results, play the game a distance away from your television set.
  - 5) Pause for 10-15 minutes after 2 hours of more of continuous game playing. This will extend the performance of your game pak.
- \* Please note that this game has been programmed to take advantage of the full screen. Some older models have rounded screens and may block out a portion of the image.

# 1. How to play

Action progresses horizontally on the screen. During play, if suddenly attacked from a blind angle, the scene will change to what is called pan and zoom. In this case the player will see the scene from GOLGO-13's perspective. When all enemies have been wiped out, action resumes at the beginning of the scene.

On the horizontally scrolling screen, there will be a subway and a building. There you meet a person who gives you information that will help unravel the story (in the animated text window).

In the action maze, when enemies are being knocked off and falling against the walls, you can search for various paraphernalia (see part 7). Even with these paraphernalia, you must pass through the laser curtain at precisely the right time or you will be killed.

When you have used up all your bullets, take appropriate precautions. As you knock off your enemies, LIFE credits and your supply of BULLETS are restored.

The total number of "telecasts" is 52. (\* You may CONTINUE to 51) When, in the middle of play, you go pass 52 times you will have to return to the very beginning of the game ; so be carefully.

# 2. Story

High above New York City a helicopter explodes. Aboard the craft is the latest bacteriological warfare weapon secretly developed by the CIA (Central Intelligence Agency)..... Cassandra-G. A vaccine and plans have been stolen from among the fragments of the helicopter wreckage. A shell fired from an M-16 has been discovered.

The copter was shot down from fire from an expert sharpshooter armed with an M-16 carbine..... The CIA concludes that the act was the responsibility of the super sniper, Golgo-13. An official release by the CIA links Golgo-13 to the KGB (the Soviet intelligence group).

Under these circumstances, The CIA Copter Incident, and the whereabouts of Cassandra-G become entangled. A representative of a secret international organization called FIXER transmits a message. FIXER believes the affair is the work of the remnants of the DREK Empire and not Golgo-

13. After the dispatch, the representative disappears.

The situation becomes more and more mysterious. A man who calls himself Condor agrees to help FIXER.

In East Berlin because Condor has received some information on Cassandra-G, the CIA, KGB, and even DREK are threats to his life.

On request from FIXER Golgo-13 has gone into action. He is to get information on a vaccine from Condor and eliminate the leader of the DREK group.

But wouldn't you know it? Just who is this ultimate target of Golgo-13? Just where is this Condor? And just who is the real culprit behind the CIA helicopter explosion?

Many enemies await you..... Now that you have become Golgo-13, let's go to East Berlin.

### 3. Cast of characters

#### ● Duke Togo (Golgo-13)

Uses a custom-made M-16 regularly, a sharpshooter with 100% accuracy, the ultimate sniper. We do not have many

details on him. Dragged into the scene when a CIA chopper explodes and goes down, he now undertakes to solve the whole mess as requested.

#### ● Condor

Because he has acquired information on Cassandra-G, the CIA, KGB, and DREK are after him.

#### ● Cherry Grace

Dispatched from FIXER, she is assigned to assist Golgo-13.

#### ● Oz Windham

He is a FIXER investigator whose whereabouts are currently unknown. He is being held prisoner in the underground base of the DREK group somewhere in East Berlin.

## 7. Paraphernalia

### Hand grenade

Destroys closing walls.  
Picked up from soldiers  
armed with machine  
guns and bayonets.

### Ammunition

There are 400 bullets  
stored here. When taken,  
your supply is full.

### Key

Is used when a door is  
locked.

### Nutrition Drink

LIFE credits reach their  
maximum.

### Infra-red binoculars

Used to detect laser beams that would otherwise  
not be seen. Even if you have the binoculars, it  
is not certain that you can dodge laser fire; but  
not having them could prove fatal.

## 8. The way to secret conquest

- Anyway, you have to knock off the enemy. When ammunition is low, on the horizontally scrolling screen use the (B) and (A) button jump kick.

In pan and zoom mode, before the enemy missiles are attacked, you shoot these missiles. (You must not fail to destroy these enemy missiles)

Also, both going to a hotel and picking up paraphernalia occasionally increase your LIFE credits. You might study in actual battle conditions just how much damage you absorb under an enemy attack and just how much you gain when you eliminate an enemy.

- If you make progress on your jump kick, you will find that you can employ a number of different useful techniques. Think about this.

- Keep in mind that before entering the action maze you should make sure that you are carrying 3 hand grenades. If you knock off a soldier with a machine gun, you will get a hand grenade.

- Listen very carefully to the dialog that is spoken in the animated

text window. A lot of information is given in dialogs that can only be heard once, so watch for it.

- If you get stuck, go back to a place that you have been to before.

- In the action maze, if you become confused, try preparing a map for yourself on graph paper. In a fight, all you need are effort and spirit to win.

## COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturers' instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communication Commission helpful:

How to Identify and Resolve Radio — TV Interference Problems.
